TEXTE WALT WHITMAN (1819-1892)

Assuming Democracy to be at present in its embryo condition, and that the only large and satisfactory justification of it resides in the future, mainly through the copious production of perfect characters among the people, and through the advent of a sane and pervading religiousness, it is with regard to the atmosphere and spaciousness fit for such characters, and of certain nutriment and cartoon-draftings proper for them, and indicating them for New World purposes, that I continue the present statement -- an exploration, as of new ground, wherein, like other primitive surveyors, I must do the best I can, leaving it to those who come after me to do much better. (The service, in fact, if any, must be to break a sort of first path or track, no matter how rude and ungeometrical.)

We have frequently printed the word Democracy. Yet I cannot too often repeat that it is a word the real gist of which still sleeps, quite unawaken'd, notwithstanding the resonance and the many angry tempests out of which its syllables have come, from pen or tongue. It is a great word, whose history, I suppose, remains unwritten, because that history has yet to be enacted. It is, in some sort, younger brother of another great and often-used word, Nature, whose history also waits unwritten. As I perceive, the tendencies of our day, in the States, (and I entirely respect them,) are toward those vast and sweeping movements, influences, moral and physical, of humanity, now and always current over the planet, on the scale of the impulses of the elements. Then it is also good to reduce the whole matter to the consideration of a single self, a man, a woman, on permanent grounds. Even for the treatment of the universal, in politics, metaphysics, or anything, sooner or later we come down to one single, solitary soul.

There is, in sanest hours, a consciousness, a thought that rises, independent, lifted out from all else, calm, like the stars, shining eternal. This is the thought of identity -- yours for you, whoever you are, as mine for me. Miracle of miracles, beyond statement, most spiritual and vaguest of earth's dreams, yet hardest basic fact, and only entrance to all facts. In such devout hours, in the midst of the significant wonders of heaven and earth, (significant only because of the Me in the centre,) creeds, conventions, fall away and become of no account before this simple idea. Under the luminousness of real vision, it alone takes possession, takes value. Like the shadowy dwarf in the fable, once liberated and look'd upon, it expands over the whole earth, and spreads to the roof of heaven.
